Built for Two Worlds

Whether you create assets or use them to grow your business — Pilot runs your entire operation.

Creators Who Sell Assets

Photographers, videographers, designers, content agencies

Your assets ABC your product. Pilot turns your media library into a business engine — from about 10 minutes, from getting to market, from upload to every social platform.

- ✓ DM in your product catalog
- ✓ Client galleries with metadata and branding
- ✓ AI picks your best shots, writes captions per platform
- ✓ Publish to Instagram, TikTok, YouTube in one click
- ✓ Inventory feed to agents and distributors
- ✓ Profitable website auto-generated from your data

Businesses That Use Assets to Sell

Agencies, e-commerce, real estate, hospitality, local businesses

Your assets fuel your marketing. Pilot keeps your brand consistent across every channel — website, email, social, print — all managed from one dashboard, all powered by AI.

- ✓ DM in your brand web marketing hub
- ✓ AI-generated assets for every channel and size
- ✓ AI generates campaigns from your product photos
- ✓ Email marketing + social publishing in one flow
- ✓ One-click social assets show and share
- ✓ Product catalogs with pricing and variants

One Conversation. Fully Operational.

Our AI assistant walks you through everything. No forms, no dashboards, no manuals.

PILOT

Assistant: Let's set up your business. What's your company name?

[Create Pilot Business Co](#)

PILOT

Assistant: Great name! I've registered your business name. Let's set up your email. Do you want to use a custom domain or go with a standard email provider?

[Go to email](#)

PILOT

Assistant: Done. Your business website is live. We've set up your social media profiles and Instagram is connected. You're live. Upload your first photos whenever you're ready — I'll handle the rest.

Everything Your Business Needs. One Platform.

No stitching together 8 different tools. No integrations to maintain. It all just works.

Instant Outsourcing

Domain, email, website, analytics, payments — provisioned automatically through a single AI conversation.

- ✓ Domain registration (10 minutes)
- ✓ Professional email (100 email)
- ✓ Toll-free 800 number (100)
- ✓ Stripe payment processing
- ✓ Company registration (100)

Digital Asset Management

- ✓ Business Q&A with knowledge base
- ✓ Smart lead qualification
- ✓ Always available when needed

Website Builder

AI-generated website connected to your DM and CRM. Update once, publish everywhere.

- ✓ AI site generation
- ✓ Content blocks with SEO
- ✓ DM connected gallery
- ✓ Content from feed to DM
- ✓ SEO and analytics built in

The DAM is the Backbone

Every other platform starts from email or CRM. We start from your assets. For creative businesses, that changes everything.

Upload → AI Analyze → Captions Generated → Published Everywhere → Analytics Tracked

[150+ examples of photos from a wedding shoot](#)

PILOT

Assistant: I've analyzed them. Here are my top 12 picks for social media use.

- Pick 3 to upload to Instagram (best 10)
- Create a 3x4 slide carousel with 10
- Send a gallery to the media via email
- Add a new Asset with the same data

Five drafted captions for each. Review?

Nobody Else Does All of This

Individually, none of these features are new. Together, in one platform, provisioned automatically. That's never existed.

SENIOR SquareSpace Website	SENIOR Mailchimp Marketing	SENIOR Later Social scheduling	SENIOR Hootsuite Social Marketing	SENIOR Zendesk Client Support	SENIOR Stripe Payment Gateway
SENIOR Shopify E-commerce	SENIOR Paycom HR Management	SENIOR Jiffy Invoice Management	SENIOR Canva Design Tools	SENIOR Clerky Legal Automation	SENIOR Pilot All-in-one Business Platform

All connected. All powered by your assets. All managed from one dashboard.

Go From Idea to Incorporated in One Session

Company registration, business banking, and financial tools — all through the same AI assistant.

Company Registration

Register your LLC or C-Corp through Stripe Atlas. EIN, operating agreement, registered agent — all handled.

Business Banking

Open a business bank account without visiting a branch. Banking and account services in your dashboard.

Payment Processing

Accept payments from 100+ apps. Splitter handles the heavy lifting. Payments go through to your business account.

Ready to Build Your Business?

Investor View

The Investor View is a polished, full-screen pitch deck that investors see when you share your startup deck with them. No login required — they simply open their private link and your deck loads instantly, branded with your colors and logo.

Key Features

- **Private share link:** Each deck has a unique, secure link. Only people with the link can view it. You can disable the link at any time to stop access.
- **Full-screen slide experience:** The deck fills the entire screen in a 16:9 presentation format — clean, professional, and distraction-free.
- **Multiple slide types:** Slides can show text and bullet points, key metrics displayed as large numbers (e.g. "\$2.4M ARR", "12,000 Users"), or interactive charts including bar, line, doughnut, and TAM/SAM/SOM market size breakdowns.
- **Your branding:** The deck uses ACME Creative Agency's brand colors and logo throughout — from the cover slide to chart colors and the navigation bar.
- **"I'm Interested" button:** A prominent call-to-action button appears on every slide. When an investor clicks it, they enter their name and email and the founder is notified immediately.
- **Keyboard navigation:** Investors can use arrow keys (← →) or click the Prev/Next buttons to move through slides. Dot indicators at the bottom show progress.
- **Engagement tracking:** The platform silently records how many slides each viewer saw and how long they spent reading — data that appears in your deck analytics.

How to Use

This page is what your investors see — you don't navigate to it yourself. Here's the flow:

1. Open your **Startup Deck** page and generate or select a deck.
2. Click **Share** to get the private investor link.
3. Send the link to investors by email or message.
4. The investor opens the link — they see the full-screen deck, starting with your cover slide showing ACME Creative Agency's name, tagline, and logo.
5. They navigate through your slides using the arrow buttons or keyboard.
6. If interested, they click **I'm Interested**, enter their name and email, and submit — you'll be notified.
7. To revoke access, return to the Startup Deck page and disable sharing for that deck.

Tips

- Make sure your cover slide tagline is punchy — it's the first thing investors read.
- Slides with metrics (large numbers) tend to be the most impactful; use them for revenue, growth rate, and user counts.
- Check your deck analytics after sending links to see which slides investors spend the most time on.
- You can have multiple decks — for example, one for seed investors and one for strategic partners — each with its own private link.
- If a deck link is leaked or forwarded unexpectedly, disable it immediately from the Startup Deck page.
